

Added Features for User Interface

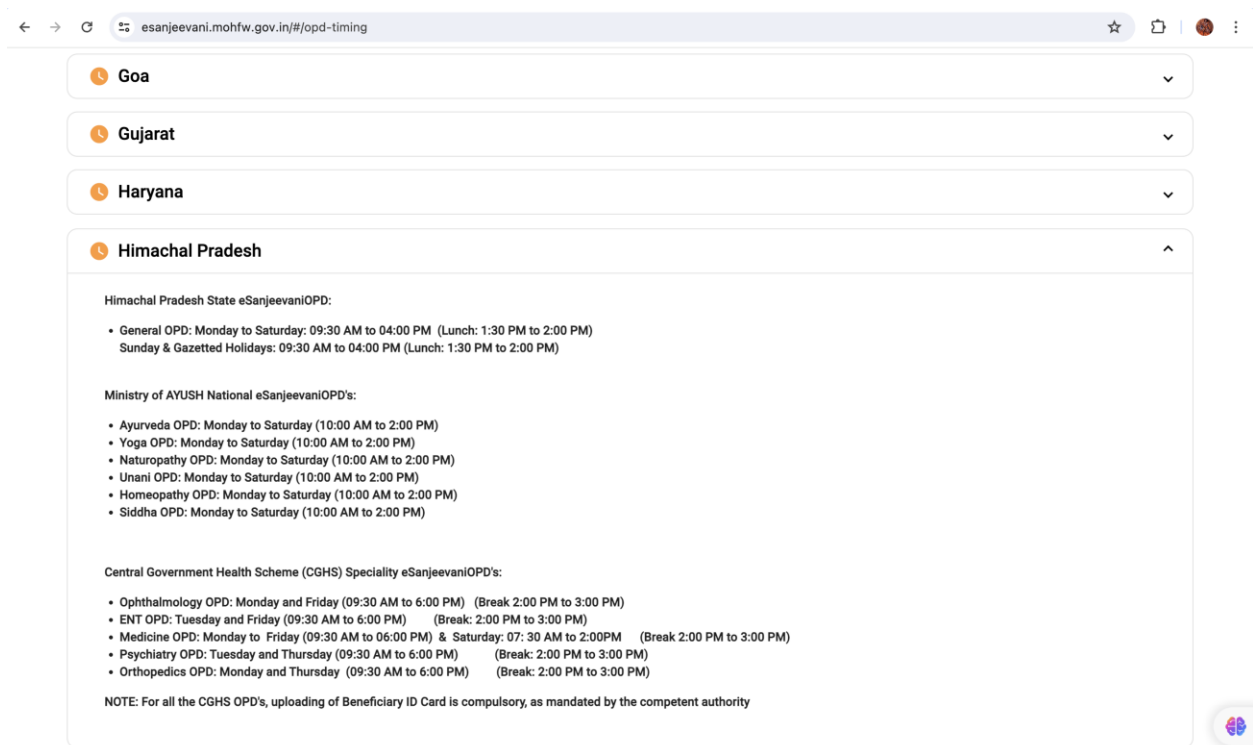

Diagnos Image:

- This feature allows users to upload images of skin lesions or conditions they are concerned about.
- The uploaded images are then processed by the AI-based skin disease diagnosis system implemented in your project.

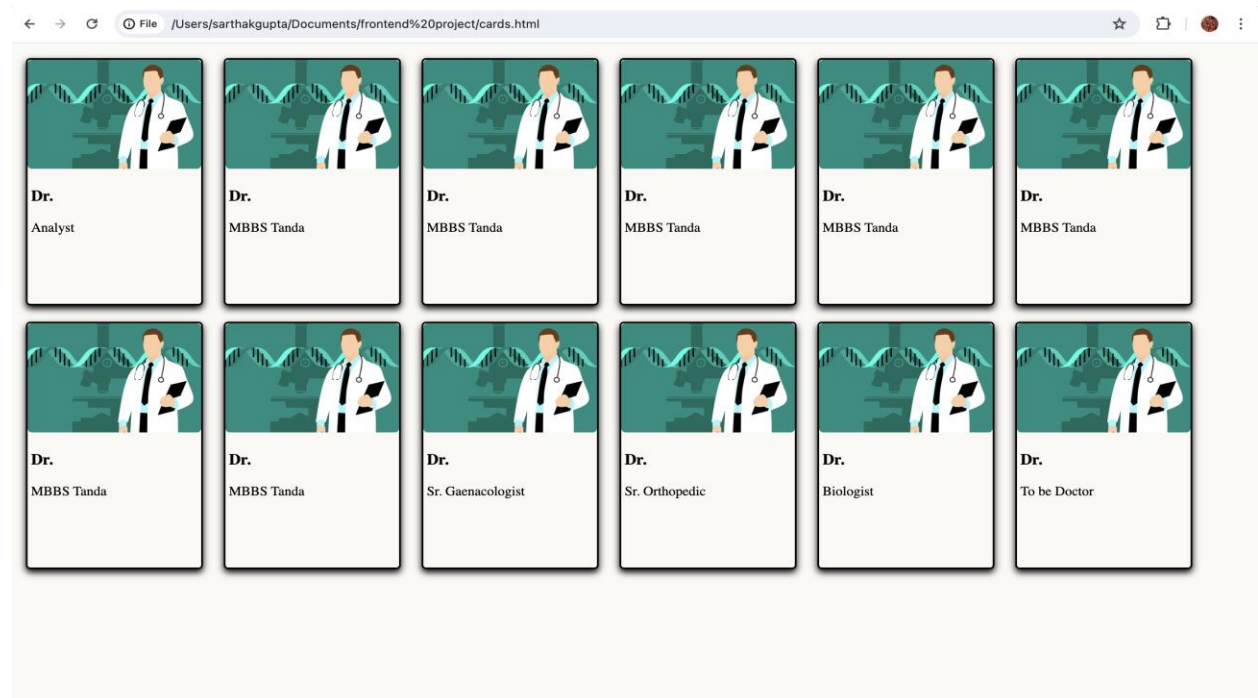

- Users receive instant feedback or preliminary diagnosis based on the analysis conducted by the AI system.
- Additionally, users may receive recommendations for further action, such as scheduling a consultation with a dermatologist or visiting a healthcare facility for a physical examination.

OPD Timings:

- This feature provides users with information about the outpatient department (OPD) timings of your dermatology clinic or healthcare facility.
- Users can easily check the opening and closing hours of the clinic, as well as any specific timings for dermatology consultations.
- Having this information readily available on your website helps users plan their visit to the clinic more effectively

Consult to a doctor:

HTML of Consult Doctor page:

```
<!DOCTYPE html>
<html lang="en">
<head>
<meta charset="UTF-8">
<meta name="viewport" content="width=device-width, initial-scale=1.0">

<link rel="stylesheet" href="cards.css">
</head>
<body>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>Analyst</p>
</div>
```

```
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>MBBS Tanda</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>MBBS Tanda</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>MBBS Tanda</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr. </h3>
<p>MBBS Tanda</p>
</div>
```

```
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>MBBS Tanda</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr. </h3>
<p>MBBS Tanda</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>Sr. Gaenacologist</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>Sr. Orthopedic</p>
</div>
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>Biologist</p>
</div>
```

```
</div>
<div class="card">

<div class="desc">
<h3>Dr.</h3>
<p>To be Doctor</p>
</div>
</div>
</body>
</html>
```

Stylesheet of Consult Doctor page:

```
.card{
width: 200px;
height: 300px;
border: 2px solid black;
display: inline-block;
margin: 10px;
border-radius: 5px;
box-shadow: 0 4px 8px black;
transition: 1s;
}

*{
background-color:rgb(250, 249, 246);
}

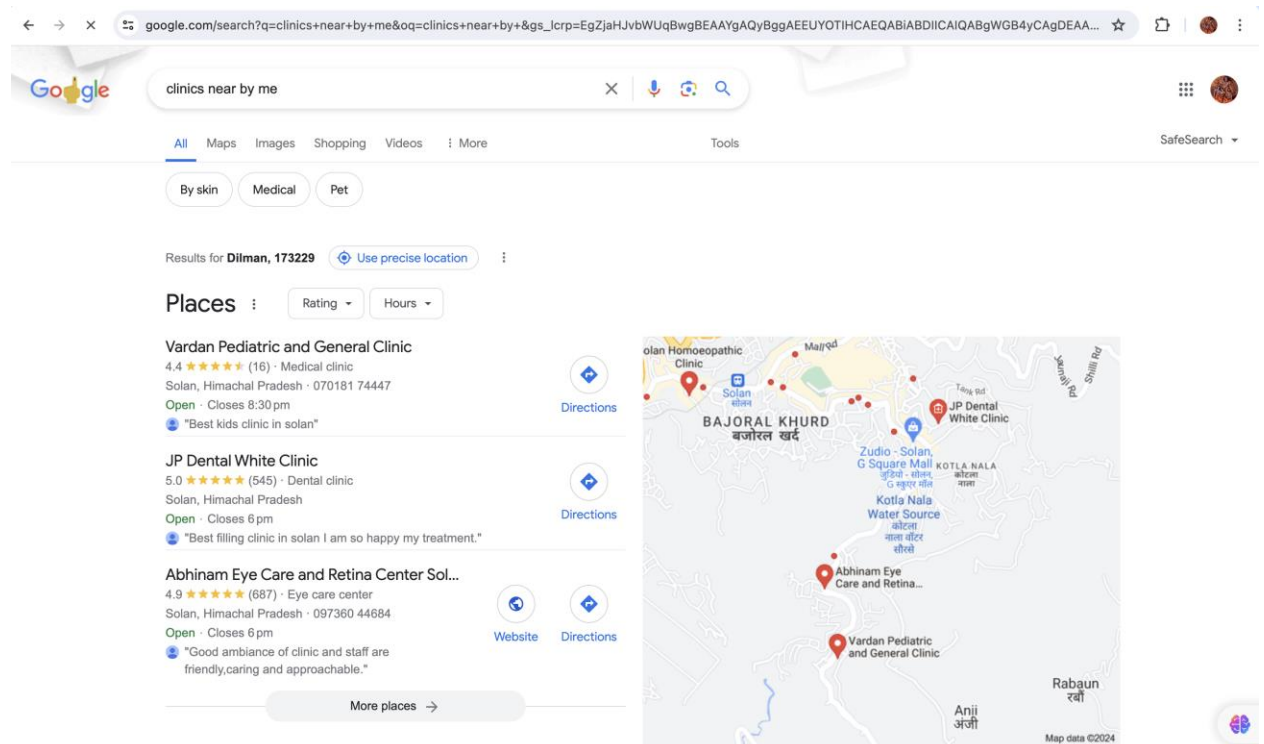

.desc {
padding: 0 4px 0 4px;
}

img {
width: 100%;
border-radius: 5px;
```

```
}  
  
.card:hover{  
box-shadow: 0 8px 18px red;  
}
```

- This feature enables users to schedule virtual consultations with dermatologists or healthcare professionals.
- Users can book appointments for video consultations directly through the website.
- The consultations may involve discussing skin concerns, reviewing diagnostic results, and receiving personalized treatment recommendations from the healthcare professionals.

Clinics:

- Utilizes geolocation or user input to display nearby dermatology clinics or healthcare facilities on a map.

- Users can easily find clinics in their vicinity and access information such as addresses, contact details, and services offered.
- Helps users locate and visit clinics conveniently for consultations or treatments.

e-Sanjeevani:

The screenshot displays the eSanjeevani website interface. At the top, the header includes the eSanjeevani logo, the Ministry of Health and Family Welfare Government of India, the 75th Azadi Ka Amrit Mahotsav logo, and navigation links for Patient, CHO/Doctor, and Download. Below the header is a green navigation bar with links for Home, About Us, OPD Timings, FAQs, and Contact Us.

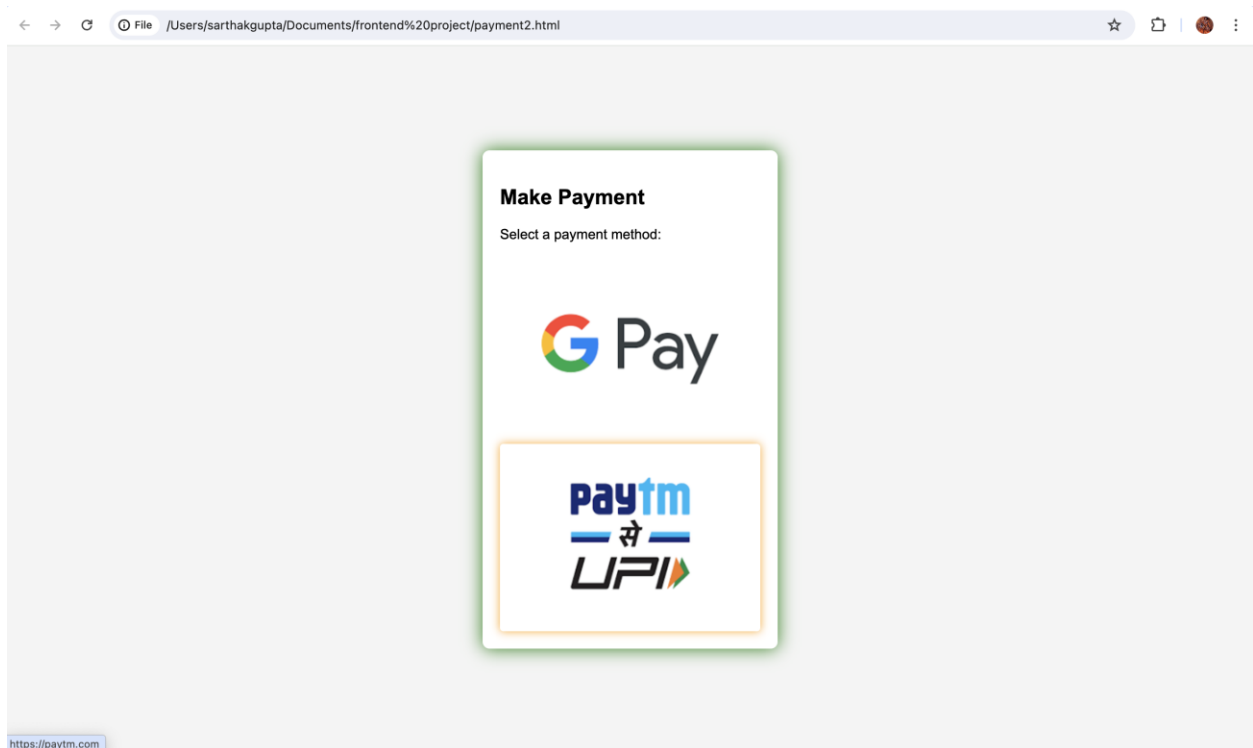

The main content area features a white box for the "National Telemedicine Service" Patient interface. It has tabs for "Login" and "Register". Under the "Login" tab, there are buttons for "OTP" and "Password". Below these is a text input field for "Email/Mobile/ABHA *". A "Get OTP" button is located to the right of the input field. Below the input field, there is a "Download mobile app" section with a QR code and a "Available on the Google Play" button.

To the right of the login/register box is a collage of four images showing telemedicine consultations. The first image shows a doctor in a white coat and mask consulting with a patient. The second image shows a doctor in a white coat and mask consulting with a patient. The third image shows a doctor in a white coat and mask consulting with a patient. The fourth image shows a doctor in a white coat and mask consulting with a patient.

- This feature offers users access to telemedicine services for remote healthcare consultations.

- Users can engage in virtual appointments with dermatologists or other healthcare providers without the need for an in-person visit.
- Through e-Sanjeevani, users can receive medical advice, prescriptions, and follow-up care, all from the comfort of their homes.

Make Payments via UPI:

HTML and stylesheet of our Payment gateway:

```
<!DOCTYPE html>
<html lang="en">
<head>
<meta charset="UTF-8">
<meta name="viewport" content="width=device-width, initial-scale=1.0">
<title>Payment Gateway</title>
<style>
body {
font-family: Arial, sans-serif;
background-color: #f4f4f4;
margin: 0;
padding: 0;
display: flex;
align-items: center;
justify-content: center;
height: 100vh;
}

.container {
background-color: #fff;
border-radius: 8px;
box-shadow: 0 0 10px rgb(0, 0, 0, 1);
padding: 20px;
width: 300px;
}

.container:hover{
box-shadow: 0 0 20px green;
}

button {
background-color: white;
color: white;
padding: 10px;
border: none;
border-radius: 4px;
```

```

cursor: pointer;
width: 100%;
}
button:hover{
box-shadow: 0 0 10px orange;
}
</style>
</head>
<body>

<div class="container">
<h2>Make Payment</h2>
<p>Select a payment method:</p>
<button onclick="makePayment('GooglePay')"><a
href="https://pay.google.com/about/"></a></button>
<button onclick="makePayment('Paytm')"><a
href="https://paytm.com/"></a></button>
</div>

<script>
function makePayment(paymentMethod) {
// You would typically send the selected payment method to your server
// and handle the payment processing securely on the server side.
// For demonstration purposes, we'll just log the selected method.
console.log('Selected Payment Method:', paymentMethod);
}
</script>

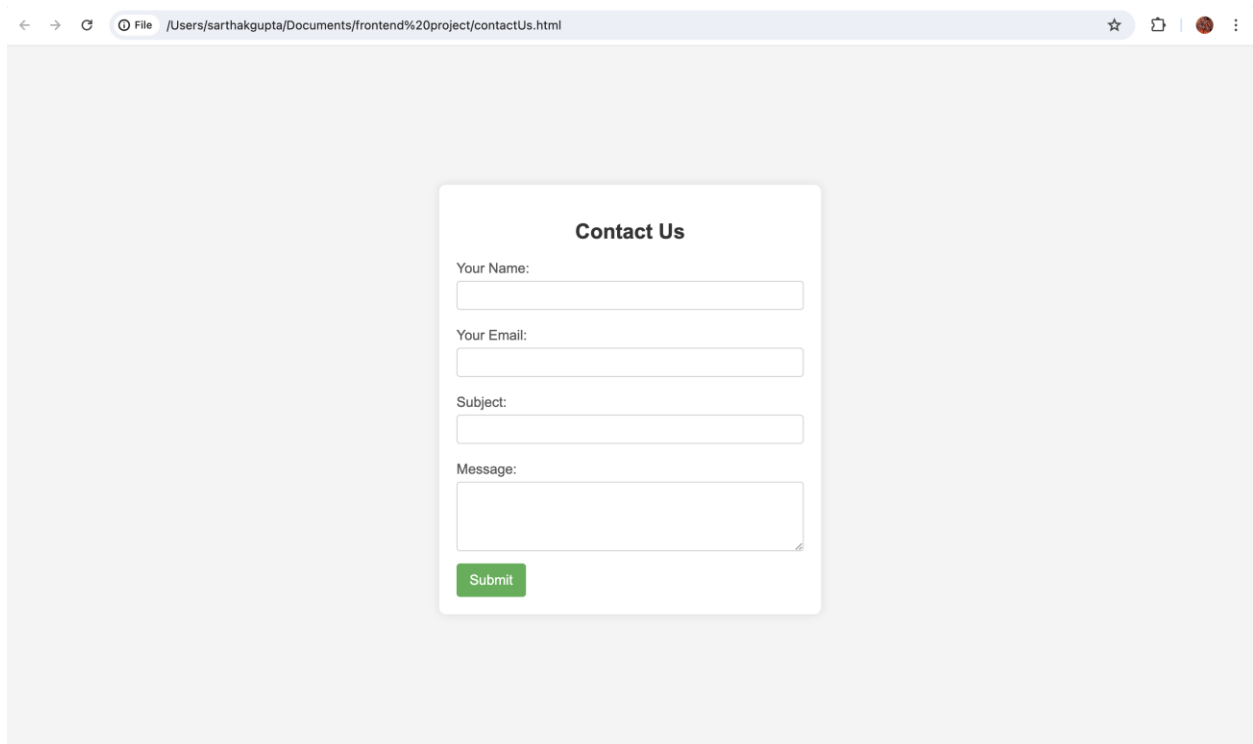

</body>
</html>

```

- This feature facilitates secure and convenient payment transactions for services rendered, such as consultations or diagnostic tests.

- Users can make payments using popular digital payment methods like UPI (Unified Payments Interface) directly through the website.
- Integration with UPI payment gateways ensures seamless and hassle-free transactions for users.

Contact Us:

The screenshot shows a web browser window with the address bar displaying the file path: `/Users/sarthakgupta/Documents/frontend%20project/contactUs.html`. The browser's address bar also shows navigation icons (back, forward, refresh) and a search icon. The main content area of the browser displays a 'Contact Us' form. The form is centered and has a white background with a subtle shadow. It contains the following fields and elements:

- Contact Us**: The title of the form, centered at the top.
- Your Name:**: A text input field.
- Your Email:**: A text input field.
- Subject:**: A text input field.
- Message:**: A larger text area for the message.
- Submit**: A green button with white text, located at the bottom of the form.

HTML and stylesheet of our Contact Us:

</html>
```

- This feature provides users with essential contact information for reaching out to your dermatology clinic or healthcare facility.
- Users can find details such as address, phone number, email, and a map of the clinic's location on the website.
- Additionally, users may have the option to fill out a contact form for inquiries or appointment requests.

Feedback:

- This feature allows users to share their feedback and experiences regarding the services provided by your dermatology clinic.
- Users can submit feedback forms or ratings directly through the website, helping you gather valuable insights and improve service quality.
- Positive feedback can also be showcased as testimonials to build trust and credibility among potential users.

By incorporating these features into our project website, we enhance the user experience, promote accessibility to healthcare services, and streamline the process of skin disease diagnosis and treatment.
